

**Microorganism Control For Air Conditioning
Systems Using Ultraviolet Light**

by

Sou Kun Tou

2002

**Faculty of Science and Technology
University of Macau**

TABLE OF CONTENTS

List of Figures.....	iii
List of Tables.....	v
List of Abbreviations	vi
Acknowledgements.....	vii
Chapter 1 Introduction.....	1
1.1 Literature Surveys.....	1
1.1.1 Sick Building Syndrome (SBS).....	2
1.1.2 Common HVAC Air Distribution Systems and Related IAQ Problems.....	4
1.1.3 Investigation of HVAC System as a Contamination Sink and Source.....	7
1.1.4 Bacteria, Fungi and related IAQ investigation	10
1.1.5 Existing Standards or Guidelines for Bacteria and Fungi Control	13
1.1.6 Existing Control Methods for Contamination in HVAC Systems	13
1.2 Objectives and Scope	26
Chapter 2. Experimental Setup	28
2.1 Experimental Set-up Inside a Dynamic Environmental Chamber.....	28
2.2 Experimental Setup inside a Classroom of Macau University.....	30
2.3 Experimental Setup in Macau Government Hospital.....	32
2.4 Air Sampling and Analysis Method.....	33
Chapter 3. Results and Discussion.....	38
3.1 Microorganism Reduction Rate Under Different UVGI Intensity Inside a Dynamic Experimental Chamber Under Closed Circulation Condition	38
3.2 UVGI Installation Location Definition on Microorganism Control.....	40
3.3 Microorganism Reduction Rate Under Different Velocity Settings and Initial Contamination Conditions With Closed Circulation Condition.....	43
3.4 Microorganism Reduction Rate for One Time UVGI Treatment to Full Fresh Air	47
3.5 Microorganism Reduction Rate for Long Time UVGI Treatment Inside a Dynamic Experimental Chamber Under Closed Circulation Condition	48
3.6 Microorganism Variation Inside the Dynamic Experimental Chamber with Standard Ventilation System, Fresh Air System and UVGI Installation.....	49
3.7 Evaluation of the Variation of Microorganism Inside an Air Conditioned Classroom with UVGI Disinfections	52
3.8 Evaluation of Safety, Additional Energy Consumption, and Investment Cost for the Usage of UVGI Technology in HVAC System	55
3.9 UV Light Selection and Pre-treatment Period	56

Chapter 4. Conclusion and Recommendations 58
