**PLUGGABLE REPOSITORY FOR INTERNET-
BASED SOFTWARE ENGINEERING
ENVIRONMENT**

by

Tou Chi Pio

Master of Science in Software Engineering

1999

**Faculty of Science and Technology
University of Macau**

TABLE OF CONTENTS

List of Figures	iv
Glossary.....	viii

Part I - Introduction and Review

Chapter 1 - Introduction.....	1
Scope of the work	1
Motivation.....	2
Structure of the thesis	3
Chapter 2 - CSCW and Internet-Based Distributed Software Engineering	4
Computer Supported Cooperative Work	5
Internet-Based Distributed Software Engineering.....	6
Tailorability.....	8
Chapter 3 - Component-Based Software Engineering.....	9
A New Paradigm.....	9
Component.....	11
Component Object Model.....	12
Java and JavaBeans	13
Composition of Components.....	16
Distributed Computing	17
Client/Server and Peers	18
Middleware	19
Remote Procedure Call.....	20
Distributed Objects	21
Summary	25

Part II - A Model for Pluggable Internet-Based Software Engineering Environments

Chapter 4 - Component Model for Pluggable Software Engineering Environments	28
Introduction.....	28
Requirements for Internet-based Software Engineering Environment	28
Customizability	29
Tool Integration Mechanism	32
Builder Tool.....	35
Administrative Component	36
Plugging	37
A Model for Pluggable Internet-Based Software Engineering Environment.....	37

Chapter 5 - Design of a Pluggable Software Repository	39
Requirements for Pluggable Software Repository	39
Repository Objects.....	41
Versioning.....	43
Meta-Data	44
Repository System Architecture.....	44
HyperWave Backend.....	45
Layered Services Architecture	47
Communication Service Layer.....	47
Repository Service Layer	49
Pluggability	53
Chapter 6 - Implementation of Software Repository and Pluggable Components.....	59
Software Repository	59
Java Class Implementation.....	61
Repository Browser	66
Editors	67
Launcher.....	68
Demonstration of Plugging Environment	69
Building of Plugged System.....	69
Deployment of the Plugged System.....	71
Execution of the Plugged System	72

Part III - Conclusions

Chapter 7 - Summary and Conclusions.....	76
Summary	76
Conclusions.....	76
Further Work.....	77
Further Applications.....	77
Bibliography.....	80
Appendix A - Implemented messages defined in Hyper-G Client/Server Protocol	84
Appendix B - Operations defined for HyperWave repository file.	85
Appendix C - Operations defined for HyperWave repository folder	86
Appendix D - Operations defined for HyperWave repository file manager (RFM)	88
Appendix E	
Attributes of HyperWave cluster implementating repository file.....	89
Attributes of HyperWave document implementing repository file.....	90
Appendix F	
Attributes of HyperWave cluster implementing repository folder.....	91
Attributes of HyperWave collection implementing repository folder	92
Appendix G - Java class list of hwserver package.....	93
HWServer	93
HWConnection	93
MessageManager	93
DocSender.....	94

DocReader.....	94
HWObject	94
HWOrderedDataOutputStream	94
RemoteObject	94
HWAttribute	95
HWCorruptedMessageException.....	95
HWServerException.....	95
Message.....	95
*Msg.....	95
Appendix H - Java class list of hwrepository package	96
HWRepositoryFileManager	96
HWRepositoryFolder	96
HWRepositoryFile.....	96
RepositoryFileManager	97
RepositoryFolder	97
RepositoryFile.....	97
RepositoryObject	97
HWRepositoryCluster	97
HWRepositoryColl	97
HWRepositoryDir.....	98
HWRepositoryDoc	98
HWRepositoryObject	98
RepositoryException	98
