The Firm Value Pricing Models with Counterparty Default Risk

by

Chan Ka Leong

Master of Science in Mathematics

2006

Faculty of Science and Technology
University of Macau

Table of Contents

1. Introduction **1**

1.1 Credit Risk 1

1.2 Pricing options with counterparty default risk 1

1.2.1 The claim of an option 1

1.2.2 Pricing options with counterparty default risk 2

1.3 The history of firm value models 4

1.3.1 Black-Scholes model 4

1.3.2 Merton's firm value model 5

1.3.3 Extensions and application of Merton's model 6

1.4 Structure of this thesis 6

2. Firm Value Model with Deterministic Rates **7**

2.1 The actual payoff of a credit-risky claim 7

2.2 The price of the credit-risky option 8

2.3 The Black-Scholes type formula 9

3. Firm Value Model with Gaussian Rates **18**

3.1 The forward martingale measure 19

3.2 The price of the credit-risky option 21

3.3 The Black-Scholes type formula 22

A. Mathematics Tools from Martingale Theory **30**

A.1 Stochastic Calculus 30

A.2 Girsanov Theorem and change of measure 32
