Table of Contents iii

List of Tables v

List of Figures vi

Chapter One Introduction 1

1.1 Background of Demolition and Reconstruction 4

1.2 Objective of the Study 6

1.3 Scope of the Study 6

1.4 Research Methodology 8

1.5 Organization of the Thesis 8

Chapter Two Literature Review 10

2.1 Real Options Theory 10

2.2 Real Estate Developments as Real Options 11

2.3 Sequential Development Real Options 13

2.4 Empirical Research on Real Option 15

2.5 Valuing American Options by Simulation 16

2.6 Summary 16

Chapter Three Optimal Demolition and Reconstruction Strategy of a Developer 17

3.1 General Assumptions and Notations 17

3.2 Model Framework 19

3.3 Basic Model and Solution for Optimal Investment Strategy 21

3.3.1 The Second Stage — Development Stage 24

3.3.2 Government Regulation 28

3.3.3 The First Stage — Relocation and Demolition Stage 29

3.4 Analysis of Investment Strategy 32

Chapter Four Strategic Exercise Strategies under Market Uncertainty 38
4.1 Introduction 38
4.2 Model Implication 40
4.3 Sensitivity Analysis 43
Chapter Five Least Square Monte Carlo Simulation 48
5.1 Introduction 49
5.2 Least Square Monte Carlo Simulation 51
5.3 Analysis of Results 54
5.4 Conclusion 65
Chapter Six Extension of Demolition and Construction Process 66
6.1 Model Modification 66
6.2 Solution for Optimal Demolition and Reconstruction Time 68
6.3 Results Analysis 69
6.4 Conclusion 73
Chapter Seven Conclusion 75
7.1 Summary of the Study 75
7.2 Contribution of the Study 77
7.3 Limitation and Possible Extension 78
