C.2

Development of Vehicle Fleet Management System Based on Global Positioning System and Artificial Intelligence

by

Lei Keng U

M. Sc. in Electromechanical Engineering

2008

Faculty of Science and Technology
University of Macau

TABLE OF CONTENTS

LIST OF FIGURES iv
LIST OF TABLES vii
LIST OF ABBREVIATIONS viii
ACKNOWLEDGMENTS ix
CHAPTER 1: INTRODUCTION 1
1.1 Literature Review 2
1.1.1 Global Positioning System 3
1.1.2 Agricultural and Transportation Industrial Usage of GPS 4
1.1.3 Existing Literature Review on Map Matching 5
1.1.4 Conclusion on Literature Review 8
CHAPTER 2:BACKGROUND 10
2.1 Global Positioning System 10
2.1.1 Space Segment 12
2.1.2 Control Segment 13
2.1.3 User Segment 14
2.1.4 GPS Satellite Signals 15
2.1.5 GPS Navigation Message 16
2.1.6 GPS Observation 17
2.1.7 Pseudo Range 18
2.1.8 Carrier Phase 19
2.1.9 GPS Error Sources 20
2.1.10 Position Accuracy and DOP 21
2.1.11 The Positioning Equations 22
2.1.12 NMEA 0183 Description 23
2.1.13 GPS Receiver Module 26
2.2 What is GIS 28
2.2.1 Coordinate System Overview 29
2.2.2 Reference Ellipsoids 29

2.2.3 Longitude, Latitude, and Height 30
2.2.4 Earth Centered Earth Fixed (ECEF) Cartesian Coordinates 31
2.2.5 Coordinates Transformation 32
2.2.6 Transformations of Ellipsoidal and Cartesian Coordinates 32
2.2.7 Transformations of Different Reference Ellipsoids 35
2.2.8 Projection 35
2.2.9 Types of Projections 36
2.2.10 Universal Transverse Mercator (UTM) Projection 37
2.3 Map Software Introduction 42
2.4 Macau Digital Map 44
CHAPTER 3: SYSTEM HARDWARE 48
3.1 GPS Data Logger 48
3.2 Features of the GPS Data Logger 49
3.3 Setting of GPS Data Logger 50
3.4 GPS Data Logger Setting in the Vehicles Fleet 53
3.5 GPS Data Logger with Telecommunication Function 56
3.6 Feature of the GPS Data Logger with Telecommunication Function 57
3.7 GPS Data Logger with Telecommunication Function Setting in Vehicle Fleet 58
CHAPTER 4: SYSTEM SOFTWARE AND ITS ALGORITHUM 62
4.1 GPS Data Collection Module 63
4.1.1 General System Setting 64
4.1.2 Drivers' Information Management 65
4.1.3 Vehicle Apply 65
4.1.4 Route Input 67
4.2 GPS Data Analysis Module 70
4.2.1 Fuzzy Logic 71
4.2.2 Fuzzy Set 72
4.2.3 Fuzzy Synthetic Evaluation 73
4.2.4 The Degree of Plausibility of the GPS Location 75
4.2.5 Map Matching 87

4.3 Vehicle Fleet Management 90
CHAPTER 5: CONCLUSION 95
5.1 Result of Testing 95
5.2 The GPS Signal Coverage in Macau 95
5.3 Conclusion and Recommendation 107
REFERENCE 108
