Investigation on heavy metals and species of arsenic in natural *Cordyceps sinensis*

by

Hong Wei

Master of Science

2008

Institute of Chinese Medical Sciences
University of Macau

碩士學位論文

天然冬蟲夏草的重金屬及砷价态分析

研究生姓名：　洪　薇

導　　師：　李紹平 副教授

專　　業：　中藥學

日　　期：　2008年7月5日

澳門大學中華醫藥研究院

TABLE OF CONTENTS

ACKNOWLEDGEMENT ..... **I**

ABSTRACT ..... **II**

摘　要 ..... **IV**

TABLE OF CONTENTS ..... **VI**

LIST of ABBREVIATIONS ..... **IX**

Chapter 1　Introduction **1**

1.1　The present status of heavy metals in Chinese Medicines 1

1.1.1　Toxicity of heavy metals 1

1.1.2　Limits of heavy metals in herbs 2

1.1.3　Sources of heavy metals in CMs 4

1.1.4　Quality control of heavy metals in CMs 4

1.1.5　Advance on the analysis of heavy metals 5

1.2　Research progress on speciation analysis of heavy metals 10

1.2.1　The relationship between species and toxicity of heavy metals 10

1.2.2　Advance on the speciation analysis of arsenic in foods and medicines 12

1.3　Brief review on natural *Cordyceps* and its habitat 15

1.3.1 Brief review on natural *Cordyceps* 15

1.3.2　Environmental characteristics of authentic *Cordyceps sinensis* 17

1.4　Summary 18

Chapter 2　Quantitative analysis of heavy metals in natural *Cordyceps* 19

2.1　Materials and methods 19

2.1.1　Instruments, Chemicals and materials 19

2.1.2　Sample preparation 20

2.1.3　AAS analysis 21

2.2　Results and discussion 21

2.2.1　Selection of microwave digestion conditions 21

2.2.2 The effects of acidity on heavy metals analysis.....22
2.2.3 Optimization of GFAAS conditions for Cd, As and Pb analysis23
2.2.4 Method validation.....28
2.2.5 Quantification of the investigated heavy metals in *Cordyceps*..31
2.3 Summary.....34
Chapter 3 Preliminary source analysis of heavy metals in *Cordyceps* ..35
3.1 Materials and methods.....35
3.1.1. Instruments, chemicals and materials.....35
3.1.2. Sample preparation.....35
3.1.3. AAS analysis.....36
3.2 Results and discussion.....36
3.2.1 Heavy metals in clean whole *Cordyceps*, stroma, dead caterpillar and soil samples.....36
3.2.2 Comparison of heavy metals in *Cordyceps* after cleaning.....38
3.2.3 Comparison of heavy metals in stroma and caterpillar.....38
3.2.4 Comparison of investigated heavy metals in natural *Cordyceps* and related soils.....39
3.3 Summary.....40
Chapter 4 Speciation analysis of arsenic in *Cordyceps* 41
4.1 Principle of separation.....41
4.2 Materials and methods.....41
4.2.1 Instruments, Chemicals, reagents and materials.....41
4.2.2 Flow chart of arsenic speciation analysis.....42
4.2.3 Extraction of inorganic As from *Cordyceps*.....43
4.2.4 Isolation of As (III) and As (V).....43
4.3 Results and discussion.....44
4.3.1 Optimization of separation conditions using anion exchange resins 44
4.3.2 Stability of As (V) during extraction and separation.....47
4.3.3 Repeatability and recovery for As(V) adsorption of anion

exchange resin 48
4.3.4 Selectivity of anion-exchange resin 48
4.3.5 Determination of organic and inorganic As 48
4.3.6 Determination of As (III) and As (V) 50
4.4 Summary 50
Conclusion 51
