Development of Environmental Information System for Macau

by

U Wa Tang

Master of Science in Civil Engineering

2001

**Faculty of Science and Technology
University of Macau**

TABLE OF CONTENTS

LIST OF FIGURES	iv
LIST OF TABLES	vii
GLOSSARY	viii
LIST OF ABBREVIATIONS.....	ix
ACKNOWLEDGEMENTS	x
CHAPTER 1: Introduction	1
CHAPTER 2: Analysis of The Essentiality of This Environmental Information System.....	4
2.1 Present Environmental Situation.....	4
2.2 Lack of Environmental Information Database.....	5
2.3 Spatial Characteristics of Pollution Problem	6
2.4 Imperfection of Environmental Model	6
2.5 Supporting Environmental Assessment	7
2.6 Advantage of Integration of GIS and Model	10
CHAPTER 3: EIS for Vehicular-Exhaust Distribution	12
3.1 Evaluaton of Dispersion Models.....	12
3.1.1 Comparison of Geographical Consideration.....	13
3.1.2 Comparison of Traffic Flow and Emission Estimation	14
3.1.3 Comparison of Dispersion Component.....	16
3.1.4 The Experimental Site.....	19
3.1.5 Comparison of Model Results	20
3.1.6 GIS and OSPM Connection Techniques.....	24
3.1.6.1 Formats of Source Data for GIS Establishment.....	24
3.1.6.2 Map Projection.....	24
3.1.6.3 Integration Method of GIS and Air Pollution Model.....	25
3.1.6.4 GIS Coverages Needed for Connection.....	25
3.1.6.5 Input File Creation and Modification	28
3.2 Result and Discussion	29
3.2.1 Modeling Environment	29

3.2.2 Pollutant Distribution Results.....	31
3.2.3 Traffic Loading Influence on Air Quality.....	34
3.2.4 Geographic Influence on Air Quality.....	39
3.2.5 Influence of The (Height : Width) Ratio on Air Quality	42
CHAPTER 4: EIS for Water Quality Distribution	48
4.1 Assessing Monitoring Data.....	49
Significance of Sampling Location and Area of Study.....	49
4.1.2 Sampling Coordinates.....	50
4.1.3 Water Quality Tests	50
4.1.4 Selection of Examination Methods.....	51
4.1.5 Sample Storage	52
4.1.6 Analyses Method, Equipment and Main Procedures.....	53
4.2 Interpolation Analysis by TIN Method.....	56
4.2.1 Triangulated Irregular Network	56
4.2.2 Advantage of TIN	57
4.2.3 Algorithm of TIN.....	58
4.3 Result and Discussion.....	63
4.3.1 Salinity and Conductivity	63
4.3.1.1 Definition	63
4.3.1.2 Mixing.....	63
4.3.1.3 Pattern	64
4.3.2 pH.....	66
4.3.3 Total Organic Carbon	69
4.3.4 Total Phosphorous	70
4.3.5 Dissolved Oxygen.....	70
4.3.6 Total Nitrogen.....	71
4.3.7 Ratio of Total Nitrogen And Total Phosphorous (TN:TP).....	71
4.3.8 Chlorophyll-a.....	72
4.3.8.1 Definition	72
4.3.8.2 Discussion.....	72
4.3.9 Suspended Solids and Turbidity	73
CHAPTER 5: Conclusion.....	78
