

**The Multi-puff Approach and the Data Assimilation
Technique to Improve a Classical Gaussian Plume Model**

by

Leong Ka U

Master of Science in Civil Engineering

2001

**Faculty of Science and Technology
University of Macau**

TABLE OF CONTENTS

LIST OF FIGURES	iii
LIST OF TABLES	viii
LIST OF ABBREVIATIONS	ix
CHAPTER 1: Introduction	1
CHAPTER 2: Gaussian Dispersion Theory	7
2.1 Traditional Gaussian Plume Dispersion	7
2.2 The Gaussian Plume Equations	8
2.3 Elements of Gaussian Plume Equations	11
2.4 Shortages of Traditional Gaussian Plume Dispersion Equations	14
2.5 Multi-Puff Approach.....	15
2.6 Multi-Puff Computation	16
CHAPTER 3: Development of Gaussian Puff Model	19
3.1 Preliminary Requirements for the Gaussian Puff Model.....	19
3.1.1 Emission pre-processor.....	19
3.1.2 Meteorological Pre-processor	20
3.2 Model Development	24
3.2.1 Specifications of the Model Elements	24
3.2.2 Features of the puff model.....	30
CHAPTER 4: Data Assimilation	34
4.1 Optimal Interpolation.....	34
4.2 Optimal Interpolation Scheme	37
4.3 Error Covariance Functions	41
4.3.1 Experimental Variogram	43

4.3.2 Theoretical Variogram.....	44
4.3.3 Models with a Sill.....	46
CHAPTER 5: Applications.....	49
5.1 Case Study in Lisbon.....	49
5.1.1 Preparation of Input Data for the Gaussian Puff Model.....	51
5.1.1.1 Emission Information.....	51
5.1.1.2 Meteorological Information.....	52
5.1.2 Results and Discussion.....	55
5.2 Application of Optimal Interpolation.....	85
5.2.1 Estimation of Error Covariance Function.....	85
5.2.2 Discussion on Data Assimilated Results.....	87
CHAPTER 6: Conclusions.....	105
BIBLIOGRAPHY.....	108
APPENDIX A: User's Guide of the Gaussian Puff Model.....	111
APPENDIX B: Structure and Subprograms of the Gaussian Puff Model.....	116
APPENDIX C: Data Requirements Checklist.....	119
APPENDIX D: Source codes of the Gaussian Puff Model.....	121
