

**The Existence of Solution to 1-Dimensional Strictly
Hyperbolic Conservation Laws**

by

Vong Seak Weng

Master of Science in Mathematics

2000

**Faculty of Science and Technology
University of Macau**

Contents

List of Figure	ii
Chapter 1: Introduction	1
Chapter 2: A study on the wave interactions	8
2.1 Basic terminology for the polygonal approximation method . . .	12
2.2 The main estimates	18
2.3 Non-appearance of vacuum	27
Chapter 3: Classical solution of non-isentropic gas dynamics equations	32
3.1 Brief review	32
3.2 A counter-example	36
BIBLIOGRAPHY	39
