

A Preconditioner for Symmetric Nonsingular M -matrices

by

Tam Hong Sang

Master of Science in Mathematics

2004

**Faculty of Science and Technology
University of Macau**

Contents

LIST OF TABLES	ii
LIST OF FIGURES	iii
Chapter 1: INTRODUCTIOIN	1
1.1 <i>M</i> -matrices	1
1.2 Conjugate gradient method	2
1.3 Practical Conjugate Gradient method	3
1.4 Convergence analysis	4
1.5 Preconditioned of PCG method	6
1.5.1 Toeplitz Matrices and Circulant Matrices	8
1.5.2 Circulant Preconditioners	9
Chapter 2: Preconditioner for solving the system with symmetric nonsingular <i>M</i>-matrix	15
2.1 Introduction to preconditioners	15
2.2 Spectral analysis and convergence rate	18
2.3 Numerical test	23
BIBLIOGRAPHY	30
