Pricing Exchange Options

by

Huang Lianghai

Master of Science in Mathematics

2005

Faculty of Science and Technology

University of Macau

Contents

1 Introduction **1**

1.1 Options 1

1.1.1 The claim of an option 1

1.1.2 Option pricing 2

1.2 Structure of this thesis 4

2 Pricing an exchange option without counterparty default risk **6**

2.1 The financial model 6

2.2 The equivalent martingale measure Q_1 7

2.3 The process specification 8

2.4 The pricing formula 11

3 Pricing an exchange option with counterparty default risk **14**

3.1 The financial model 14

3.2 The equivalent martingale measure Q_1 15

3.3 The process specification 17

3.4 The pricing formula 18

A Basic definition and theorem **30**

A.1 Standard Brownian motion and martingale 30

A.2 Itô's formula and Itô's stochastic calculus 31

A.3 Novikov condition and Girsonov's Theorem 32
