**Comparison of nucleosides and related compounds
in natural and cultured *Cordyceps***

by

Fan hui

Master of Science

2004-2006

**Institute of Chinese Medical Sciences
University of Macau**

碩士學位論文

天然和人工蟲草中核苷類成分的比較研究

研究生姓名： 範 輝
導 師： 李紹平
專 業： 中 藥 學
日 期： 2006.6

澳門大學中華醫藥研究所

TABLE OF CONTENTS

CHAPTER 1: Review on nucleosides of <i>Cordyceps</i> and analytical methods.....	1
Section 1: Study on nucleosides in <i>Cordyceps</i>	1
1.1. Introduction.....	1
1.2. Nucleosides—one of the major components in <i>Cordyceps</i>	1
Section 2: Review on analytical methods for nucleosides and analogous.....	2
2.1. Chromatographic analysis of nucleosides.....	3
2.2. Electrochemistry analytical methods for analysis in nucleosides.....	13
2.3. Biological analytical methods for analysis in nucleosides	13
2.4. The perspective of the new analytical methods of nucleosides in <i>Cordyceps</i> . ..	14
CHAPTER 2: Qualitative and quantitative determination of nucleosides, bases and their analogues in natural and cultured <i>Cordyceps</i> by pressurized liquid extraction and high performance liquid chromatography–electrospray ionization tandem mass spectrometry (HPLC–ESI–MS/MS)	15
Section 1: Materials and instruments.....	15
1.1. Materials.....	15
1.2. Instruments.....	16
Section 2: Methods	19
2.1. Sample preparation	19
2.2. HPLC-UV-MS analysis.....	19
Section 3: Results and discussion	20
3.1. Qualitative analysis on nucleotides in <i>Cordyceps</i> by HPLC-DAD- ESI-MS. ..	20
3.2. Qualitative analysis of components in <i>Cordyceps</i> by HPLC-DAD- ESI-MS. ..	29
CHAPTER 3: Comparison of bio-available nucleosides compounds in natural and cultured <i>Cordyceps</i>.....	37
Section 1: Materials and methods.....	38
1.1 Materials.....	38
1.2. Instruments.....	39
1.3. Optimization of chromatographic condition.....	39
1.4. Optimization of acid hydrolytic condition.....	44
1.5. Optimization of sample preparation condition	50
Section 2: Results and discussion	55

4.1. Qualitative analysis using LC-MS	56
4.2. Validation of the method	61
4.3. Quantitation of bio-available nucleosides in <i>Cordyceps</i>	63
Section 3: Discussion.....	65
CHAPTER 4: Evaluation of nucleosides on quality control of <i>Cordyceps</i>	67
Section 1: Comparison of the amounts of nucleosides using LC-MS method and bio-available nucleosides using HPLC method	67
Section 2: Evaluation of nucleosides on quality control of <i>Cordyceps</i>	68
Reference:	70
