

**Protective Effect of Total Flavonoids from Leaves of
Crataegus pinnatifida (hawthorn) against Hydrogen
Peroxide induced Injury in Myocardiac H9C2 Cells**

by

SUN TAO

MASTER OF SCIENCE

TABLE OF CONTENTS

LIST OF FIGURES	ix
中文摘要	x
ABSTRACT	xi
PREFACE	xiii
CHAPTER 1: Ischemic heart disease and myocardial cell injury	1
Section 1. Introduction	1
Section 2. IHD and myocardial cell injury	1
Section 3. Mechanism of myocardial cell injury among Ischemia/Reperfusion ...	3
Section 4. Pharmacological therapy.....	5
4.1. Antioxidants/free radical scavengers.....	5
4.2. Calcium antagonists.....	7
4.3. Inhibitor of Na ⁺ /H ⁺ exchanger.....	8
4.4. Renin-angiotensin system antagonists	9
4.5. Adenosine or adenosine receptor agonists.....	10
4.6. Neutrophil inhibitors.....	11
4.7. Complement system inhibitors	12
Section 5. Conclusion.....	13
Section 6. Reference.....	13
CHAPTER 2: Hawthorn-A potential medicinal herb to the cardiovascular disease	25
Section 1. Introduction.....	25
Section 2. Pharmacology research progress.....	27
2.1. Antioxidation	27
2.2. Decreasing the blood lipids of hyperlipidemia	28
2.3. Cardiovascular protective effect	28
2.3.1. Anti-myocardial infarction.....	28

2.3.2. Treating Chronic Heart Failure.....	28
2.3.3. Lowering serum total cholesterol	28
2.3.4. Anti-hyperglycemic	29
2.3.5. Protecting human vascular endothelial cell damage.....	29
2.3.6. Protecting brain damage against ischemia/reperfusion.....	30
Section 3. Discussion	30
Section 4. Reference	31
CHAPTER 3: Experiments	34
Section 1. Introduction.....	34
Section 2. Materials and methods	35
2.1. Reagents	35
2.2. Cell culture.....	35
2.3. The cytotoxicity of TFFLOCP for H9c2 cells	35
2.4. Cell Pretreatment protocol	36
2.5. Cell viability and LDH release test.....	36
2.6. Fluorescent staining of H ₂ O ₂ cell injury test.....	37
2.7. Cell cycle test-measurement of apoptosis.....	38
2.8. Measurement of the mitochondrial membrane potential (MMP)	38
2.9. Measurement of intracellular ROS scavenge.....	39
2.10. Measurement activity of Caspase-3	40
2.11. Statistical analysis.....	40
Section 3. Results.....	41
3.1. The cytotoxicity of TFFLOCP to H9c2 cells.....	41
3.2. Protective effects of TFFLOCP on H9c2 cells death induced by H ₂ O ₂ ...	43
3.3. Protective effects of TFFLOCP on DNA condensation induced by H ₂ O ₂	46
3.4. Cell cycle analysis.....	49
3.5. Inhibitory effect of TFFLOCP on mitochondrial membrane permeability transition (MPT) by H ₂ O ₂	52
3.6. Scavenging effects of TFFLOCP on intracellular ROS induced by H ₂ O ₂	56
3.7. Inhibitory effects of TFFLOCP on caspase-3 activity induced by H ₂ O ₂ ..	60

Section 4.Discussion	62
Section 5.Reference	64
ACKNOWLEDGMENTS	69
