C.2

UNIVERSITY OF MACAU
FACULTY OF BUSINESS ADMINISTRATION

**THE VALUE OF B2B E-COMMERCE IN
IMPROVING THE SERVICE LEVEL IN
SUPPLY CHAINS**

Inelle Patrice alias Tang I Nei

M-A1-6136-9

**Thesis presented to the
Faculty of Business Administration
University of Macau
In partial fulfillment for granting the MBA Degree
(E-Commerce)**

2006

TABLE OF CONTENTS

CHAPTER I. INTRODUCTION	1
SUPPLY CHAIN MANAGEMENT.....	1
Definition of the supply chain.....	2
The evolution of supply chains	4
Definition of Supply Chain Management (SCM).....	5
The challenge of supply chain management (SCM).....	6
PERFORMANCE MEASUREMENT OF SCM	8
Fill Rate.....	9
On-time delivery	11
ELECTRONIC COMMERCE AND ITS IMPACT ON SCM	12
The need for supply chain management to embrace electronic commerce	12
Supply chain management with electronic commerce.....	14
Electronic commerce facilitating supply chain management	15
Electronic commerce revolutionizing supply chain management	15
OBJECTIVES OF THE STUDY	16
CHAPTER II. LITERATURE REVIEW	17
SCM PERFORMANCE.....	17
Performance measurement.....	17

Performance measurement in SCM	19
Researches on studying supply chain performance improvement.....	22
INFORMATION TECHNOLOGY ON SCM.....	24
The bullwhip effect	25
Reductions in the bullwhip effect with information technology.....	28
B2B E-COMMERCE.....	29
B2B EC in supply chain brings about supply chain integration	31
B2B EC in supply chain enhances information sharing	32
B2B EC in supply chains bring about supply chain restructuring.....	33
SIMULATION OF SCM.....	34
Supply chain modeling	34
An overview of simulation.....	35
Simulation in supply chain management	35
CHAPTER III. RESEARCH MODEL	38
WORKING DEFINITIONS OF KEY TERMINOLOGIES.....	38
Definition of “B2B e-commerce”	39
Definition of “supply chain”	40
DEPENDENT VARIABLE	40
INDEPENDENT VARIABLES	41

IV1:	Information sharing along supply chain	41
IV2:	Supply chain integration	45
IV3:	Supply chain restructuring	46
RESEARCH HYPOTHESIS		48
CHAPTER IV. METHODOLOGY		49
MODEL IN DESCRIPTION		49
EFFECTS OF B2B E-COMMERCE ON SUPPLY CHAIN		51
Supply chain without e-commerce.....		51
Assumption 1:	Visibility of information along the supply chain	51
Assumption 2:	Management practices on dealing with an order request .	
	52
Supply chain with e-commerce that brings information sharing		52
Assumption 1:	Visibility of information along the supply chain	53
Assumption 2:	Management practices on dealing with an order request .	
	53
Supply chain with e-commerce that brings integration		54
Assumption 1:	Visibility of information along the supply chain.....	54
Assumption 2:	Operations that differ from that of the traditional case	55
Supply chain with e-commerce that brings supply chain restructuring.....		55

SIMULATION MODEL.....	55
Simulation model description	56
Order requesting process.....	57
Manufacturer’s production process.....	58
Order fulfillment process	58
Inventory planning process	59
The simulation run	60
Base scenario – supply chain without e-commerce	60
Planning inventory in the base case scenarios	61
Setting delivery dates in the base case scenario.....	61
Scenario with e-commerce – supply chain with information sharing.....	63
Inventory planning process in the scenario with information sharing.....	63
Setting delivery dates in the scenario with information sharing.....	64
Scenario with e-commerce – an integrated supply chain.....	66
Inventory planning process in the scenario of an integrated supply chain	66
Setting delivery dates in the scenario of an integrated supply chain	66
Scenario with e-commerce – supply chain with restructuring.....	67
ASSUMPTIONS OF SIMULATION	68
SIMULATION RESULTS AND ANALYSIS	70

Results of the simulation.....	70
Analysis of the simulation results	74
Scenario with information sharing (SIS) on fill rate.....	75
Scenario with supply chain integration (SCI) on fill rate	77
Scenario with supply chain restructuring (SCR) on fill rate.....	80
A comparison of all scenarios on fill rate	82
Scenario with information sharing (SIS) on on-time delivery	83
Scenario with supply chain integration (SCI) on on-time delivery	90
Scenario with supply chain restructuring (SCR) on on-time delivery	96
A comparison of all scenarios on on-time delivery performance	100
LIMITATIONS OF THE MODEL	101
CHAPTER V. DISCUSSION AND MANAGERIAL INSIGHTS.....	103
EFFECT OF B2B E-COMMERCE IN SUPPLY CHAINS ON FILL RATE PERFORMANCE	104
Effect of information sharing on fill rate performance	104
Effect of supply chain integration on fill rate performance	107
Effect of supply chain restructuring on fill rate performance.....	111
EFFECT OF B2B E-COMMERCE IN SUPPLY CHAINS ON ON-TIME DELIVERY PERFORMANCE	112

Effect of information sharing on on-time delivery performance	113
Effect of supply chain integration on on-time delivery performance	116
Effect of supply chain restructuring on on-time delivery performance	117
MANAGERIAL INSIGHTS.....	117
CHAPTER VI. CONCLUSIONS.....	121
REFERENCES	125
