Faculty of Business Administration

*The “Firm Size” Effect in the Hong Kong Stock Market
for the period 1986 to 1993.*

Thesis presented to the Faculty
of Business Administration,
University of Macau for the
granting of the MBA degree in
Strategic Management

Chui Man Wai

1996

0 6 MAR 1997

TABLE OF CONTENTS

ACKNOWLEDGMENTS.....	ii
ABSTRACT.....	iii
CHAPTER I.....	5
INTRODUCTION.....	5
CHAPTER II.....	8
LITERATURE REVIEW.....	8
<i>Can we explain the “Size” Effect ?</i>	12
Market Efficiency.....	12
Tax-Loss-Selling Hypothesis.....	13
Neglected Firm - firm to which analysts do not pay attention.....	14
Infrequent Trading.....	15
Misspecification of CAPM.....	17
Transaction Cost.....	18
The “Size” Effect Within Industries.....	19
<i>Stock Market Anomalies.....</i>	<i>21</i>
P/E Vs Size.....	21
Size Vs Calendar anomalies.....	23
The January Effect Vs The Size effect.....	23
The Holiday Effect Vs The Size Effect.....	24
The Weekend Effect Vs The Size Effect.....	24
CHAPTER III.....	27
DATA COLLECTION.....	27
<i>Database.....</i>	<i>27</i>
<i>Study period : January 1986 to December 1993.....</i>	<i>27</i>
<i>Selection Criterion.....</i>	<i>28</i>

<i>Data</i>	28
Monthly Returns	28
Monthly Market Capitalization.....	29
Daily Transaction.....	29
Monthly Hang Seng Index.....	30
CHAPTER IV	31
METHODOLOGY	31
<i>Part One</i>	31
Group Formation	31
The Measurement of Risk	33
Beta.....	33
Standard Deviation	35
The Measurement of Return.....	35
F-test (One-way Anova Test).....	36
Cross-sectional Regression Analysis	39
<i>Part Two</i>	40
Formation Period	40
Test Period	41
F-test	41
The Correlation Analysis among size, frequency of non-trading and return	43
CHAPTER V	44
STATISTICAL FINDINGS.....	44
<i>Brief statistics description for 5 size groups</i>	44
The Distribution of Delisted Firms.....	44
Market Capitalization for each group in Jan 86 and Dec. 93.	46
<i>Empirical Results</i>	47
Empirical Results on the first objective of study.....	47
The size distributions for FIVE SIZE groups.....	47
The Descriptive statistics for each size group	50

The Descriptive statistics for each size group	50
The Result of Hypothesis Testing of the existence of the “firm size” effect and it’s relationship with the “January” effect.	52
The Result of Cross-section Regression Analysis.....	54
Empirical results on the Second objective of study.....	57
The size distributions for FNT subgroups.....	57
The Descriptive Statistics for the FNT subgroups.....	60
The Result of Hypothesis Testing.....	62
The result of the correlation analysis on the three variables: return, size and the frequency of non-trading.	63
CHAPTER VI.....	67
CONCLUSION.....	67
CHAPTER VII.....	69
RECOMMENDATION FOR FURTHER RESEARCH	69
BIBLIOGRAPHY.....	71
