

**Preformulation and Oral Absorption Mechanistic
Studies on Zedoary Turmeric Oil**

by

Leng Wei

Master of Science

2007

**Institute of Chinese Medical Sciences
University of Macau**

碩士學位論文

莪術油口服吸收機理及製劑前研究

研究生姓名： 冷薇
導 師： 鄭穎 王一濤
專 業： 中藥學
日 期： 2007.6

澳門大學中華醫藥研究院

TABLE OF CONTENTS

LIST OF FIGURES	vi
LIST OF TABLES.....	viii
LIST OF ABBREVIATIONS.....	x
PREFACE.....	xi
ACKNOWLEDGEMENTS.....	xiii
CHAPTER 1: Introduction	1
1.1. Zedoary Turmeric Oil	1
1.1.1. Introduction.....	1
1.1.2. Chemical constituents	1
1.1.2.1. Volatile components	1
1.1.2.2. Non-volatile and other components	3
1.1.2.3. Structures elucidation	3
1.1.3. Pharmacological activities of Zedoary Turmeric Oil	5
1.1.4. Pharmacological activities of active components in Zedoary Turmeric Oil	7
1.1.4.1. Curcumol	7
1.1.4.2. Beta-elemene	8
1.1.5. Pharmacokinetics of Zedoary Turmeric Oil	9
1.1.6. Formulation development of Zedoary Turmeric Oil	10
1.1.6.1. Nanocapsule freeze-dried powder injection	10
1.1.6.2. Hydroxypropyl-beta-cyclodextrin inclusion complex	11
1.1.6.3. Soft-gel capsule.....	11
1.1.6.4. Dripping-pill	11
1.2. The Caco-2 cell culture model.....	12
1.2.1. Introduction.....	12
1.2.2. Transport pathways of intestinal absorption.....	13

1.2.3. Advantages and disadvantages of Caco-2 cell model.....	15
1.2.4. Applications of Caco-2 model in drug absorption and metabolism.....	15
1.2.4.1. Absorption screening	15
1.2.4.2. Absorption mechanism	16
1.2.4.3. Drug metabolism.....	16
1.2.5. In vitro-in vivo comparisons	17
1.3. Self-emulsifying drug delivery systems (SEDDS)	18
1.3.1. Introduction.....	18
1.3.2. Mechanism of self-emulsification	19
1.3.3. Excipients of SEDDS.....	20
1.3.3.1. Oil	20
1.3.3.2. Surfactants	21
1.3.3.3. Co-solvents	21
1.3.4. Conclusions.....	22
CHAPTER 2: Analytical methods of Zedoary Turmeric Oil	23
2.1. Materials	23
2.1.1. Chemicals.....	23
2.1.2. Instruments.....	23
2.2. Methods	24
2.2.1. Analytical methods of Zedoary Turmeric Oil and its pure compounds	24
2.2.1.1. HPLC analysis of Zedoary Turmeric Oil.....	24
2.2.1.2. HPLC analysis of individual pure component of Zedoary Turmeric Oil	26
2.2.2. Preformulation study of Zedoary Turmeric Oil	30
2.2.2.1. Determination of proportion of each constituents	30
2.2.2.2. Sample preparation for aqueous solubility determination.....	31
2.2.2.3. Determination of solubility.....	31
2.2.2.4. Determination of stability	31

2.2.3. Validation of HPLC methods	32
2.3. Results.....	33
2.3.1. Preformulation studies and sample treatment of Zedoary Turmeric Oil	33
2.3.1.1. Proportion of each constituents in Zedoary Turmeric Oil	33
2.3.1.2. Solubility of constituents of Zedoary Turmeric Oil.....	33
2.3.1.3. Stability of constituents of Zedoary Turmeric Oil.....	35
2.3.2. Validation of HPLC methods	40
2.3.2.1. Calibration curve.....	40
2.3.2.2. Precision.....	42
2.3.2.3. Accuracy	43
2.4. Discussion.....	44
2.4.1. Solubility of Zedoary Turmeric Oil and pure compounds.....	44
2.4.2. Stability of Zedoary Turmeric Oil and pure compounds.....	44
2.5. Conclusion	45
CHAPTER 3: Transport mechanism of Zedoary Turmeric Oil.....	46
3.1. Materials	46
3.1.1. Chemicals.....	46
3.1.2. Materials for cell culture.....	46
3.1.3. Instruments.....	46
3.2. Methods	48
3.2.1. Analytical methods for validation of Caco-2 model.....	48
3.2.1.1. Fluorescence analysis of lucifer yellow	48
3.2.1.2. HPLC analysis of propranolol	48
3.2.2. Cell culture.....	48
3.2.3. Validation of Caco-2 cell monolayer model.....	49
3.2.3.1. Integrity of Caco-2 cell monolayer	49
3.2.3.2. Permeability of paracellular and transcellular markers	49
3.2.4. Transport study of Zedoary Turmeric Oil using Caco-2 cell monolayer model	49

3.2.4.1. Preparation of dosing formulations of Zedoary Turmeric Oil	49
3.2.4.2. Cytotoxicity test.....	50
3.2.4.3. Protocols of permeability study	51
3.2.4.4. Transport experiment of pure compounds in Zedoary Turmeric Oil	51
3.2.4.5. Infection of other components in Zedoary Turmeric Oil to the permeability of active compounds	52
3.2.4.6. Uptake experiment.....	52
3.2.4.7. Sample treatment	53
3.2.5. Calculation.....	53
3.2.6. Statistical analysis.....	53
3.3. Results.....	54
3.3.1. Validation of Caco-2 cell model.....	54
3.3.1.1. Integrity of Caco-2 cell monolayer.....	54
3.3.1.2. Permeability of paracellular and transcellular markers.....	54
3.3.2. Transport study of Zedoary Turmeric Oil.....	55
3.3.2.1. Cytotoxicity test.....	55
3.3.2.2. Transport experiment of pure compounds in Zedoary Turmeric Oil	57
3.3.2.3. Absorption of curdione and germacrone at different concentrations	59
3.3.2.4. Infection of other components in Zedoary Turmeric Oil to the permeability of active compounds	60
3.3.2.5. Uptake experiment of furanodiene	64
3.4. Discussion.....	68
3.4.1. Validation of Caco-2 cell model.....	68
3.4.2. Transport mechanism of Zedoary Turmeric Oil.....	68
3.4.2.1. Bi-directional transport of constituents in Zedoary Turmeric Oil	68

3.4.2.2. Concentration dependency of curdione and germacrone.....	68
3.4.2.3. Infection of other components in Zedoary Turmeric Oil to the transport of active compounds	69
3.4.2.4. Uptake of furanodiene	69
3.5. Conclusion	71
BIBLIOGRAPHY.....	73
APPENDIX A: Stability profile of Zedoary Turmeric Oil at 60°C	85
APPENDIX B: Stability profile of Zedoary Turmeric Oil at 40°C	86
APPENDIX C: Stability profile of Zedoary Turmeric Oil of illumination	87
