

Visualization of Meteorological Data

by

Tam Chi Man Benedito

Master of Science in Software Engineering

2008

**Faculty of Science and Technology
University of Macau**

TABLE OF CONTENTS

List of Figures.....	iii
List of Tables.....	vi
Glossary.....	vii
List of Abbreviations.....	viii
Preface.....	ix
Chapter 1: Introduction.....	1
Chapter 2: Visualization of API.....	4
2.1 Background of Guangdong and the Air Pollution.....	4
2.2 Geographical Facts of the Cities Involved in this Project.....	5
2.3 Prototype Development.....	7
2.4 Acquisition of the API.....	8
2.5 Extracting the Necessary Fields for the API Interpolation.....	12
Chapter 3: Introduction to Interpolation.....	13
3.1 Introduction of Spatial Interpolation.....	13
3.1.1 Linear Interpolation.....	14
3.1.2 Cressman analysis.....	15
3.1.3 Barnes analysis.....	18
3.1.4 The Weaver analysis.....	19
3.1.5 Kriging Analysis.....	20
Chapter 4: Implementation of API Visualization.....	22
Chapter 5: Experiment on API Visualizationan.....	29
5.1 Drawing Contouring Charts with the Result Data.....	33
5.2 Pseudo Coloring.....	33
5.3 Innovative Dissemination of the Daily API to the Public.....	34
5.4 Analysis of the API.....	35
5.5 Brief Analysis on the API over Guangdong.....	44
Chapter 6: 3D Cloud Visualization by Estimating the Height.....	45
6.1 Remote sensing.....	45

6.1.1 Satellites in our daily lives.....	45
6.1.2 Introduction to the satellite MTSAT-1R.....	46
6.1.3 Introduction to the satellite FY-2C	46
Chapter 7: Stereoscopic imaging with 2 satellites.....	51
7.1 Methods for Model 3D Cloud from Satellite Images	51
7.1.1 Measuring Heights from Individual and Paired Images.....	51
7.1.2 Parallax	52
7.1.3 3D Satellite Images - Interferometry	52
7.2 Prototype Development	55
Chapter 8: 2D Pattern Identification.....	57
8.1 Cross Correlation.....	57
8.1.1 Module Coded to Find the Correlation.....	58
8.2 2D Pattern Identification using Cross Correlation.....	59
Chapter 9: Methodology of Cloud Height Estimation.....	61
9.1 Simplification of the Calculation of Cross-correlations	63
9.2 Mathematical Methodology of Height Estimation	64
9.2.1 The Great Circle Distance formula.....	67
9.2.2 Calculation of Elevation Angle from Ground	69
9.3 Diagnostic Checking with the Troposphere Lapse Rate.....	71
Chapter 10: Experiment on 3D Cloud Modeling.....	73
10.1 Experiment with the Prototype Program	73
10.2 Modeling the 3D Cloud	76
10.3 Comparing the Products of 3D Cloud Models	77
Chapter 11: Conclusions.....	81
References.....	84
