**Image Completion Based on Texture Regularity
and Texture Synthesis**

by

Hao Chuanyan

Master of Science in Software Engineering

2008

**Faculty of Science and Technology
University of Macau**

TABLES OF CONTENTS

LIST OF FIGURES	viii
LIST OF TABLES	x
ACKNOWLEDGMENTS	xi
CHAPTER 1: Introduction	12
1.1 Overview	12
1.1.1 Texture and Near-regular texture	12
1.1.2 Texture synthesis	18
1.1.3 Texture regularity	21
1.1.4 Image completion	22
1.2 Motivation and contributions	22
1.3 Framework of thesis	23
CHAPTER 2: Related work	24
2.1 Generation of texture synthesis	24
2.2 Procedure texture synthesis	28
2.3 Pyramid-based sampling and feature matching	31
2.4 Pixel-based sampling texture synthesis	34
2.4.1 Non-parametric sampling	35
2.4.2 Fast texture synthesis using tree-structured vector	37
2.4.3 Synthesizing natural textures	39
2.4.4 Image analogies	41
2.4.5 Video texture	44
2.5 Patch-based sampling texture synthesis	46
2.5.1 Image quilting	47
2.5.2 Patch-based sampling	48
2.5.3 Graphcut textures	52
2.5.4 Wang tile textures	54
2.5.5 Near-regular texture synthesis	55
2.5.6 Parallel controllable textures	59
2.6 Texture synthesis over surfaces	61
2.6.1 Texture synthesis on arbitrary manifold surface	62
2.6.2 Texture and shape synthesis	64
2.6.3 Lapped textures	65
2.6.4 Hierarchical pattern mapping	67
2.7 Discovering texture regularity	68
2.8 Image completion	71
CHAPTER 3: Automatic extraction of mask	73
3.1 Problem statements and difficulties	73
3.2 Extract foreground mask automatically	74
3.2.1 Extract texels by higher-order feature matching	74
3.2.2 Classification by k-means clustering algorithm	79

3.2.3 Vector-based synthesis to extract final mask.....	84
3.3 Comparisons on mask.....	86
CHAPTER 4: Filling by priority-based texture synthesis	89
4.1 Filling order is critical to maintain texture structures.....	89
4.2 Priority algorithm	90
4.3 Filling regions by texture synthesis.....	91
4.4 Results	96
CHAPTER 5: Conclusions and further work.....	103
5.1 Conclusions.....	103
5.2 Further work.....	104
BIBLIOGRAPHY.....	105
